Mr Piotr Michajłowicz Krychun  
President  
Ukrainian Federation of  
Professional Accountants and  
Auditors of Ukraine (UFPAA)

*Dear Mr President,*

The attack on your country is an unprecedented violation of the international rules and has already caused many personal tragedies and will have deep social and economic consequences.

We are shocked by the aggression of Russia towards independent Ukraine and by the war atrocities taking place in your country. We express our heartfelt solidarity. Besides the words of encouragement, we declare a concrete support to the Ukrainian accountants who, as a result of the war, were forced to leave the country.

The Accountants Association in Poland (AAP) would like to offer its support to the Ukrainian accountants as well as to their families. To make it effective, we ask the Ukrainian Federation of Professional Accountants and Auditors, a long-term partner of AAP, for information about the expected forms of assistance. We believe that UFPAA has the best knowledge about the current needs of its members.

After receiving your answer, we will determine the details of further supportive actions that AAP will be able to take within its capabilities.

Please accept once again our expressions of solidarity and support.

*Yours faithfully,*

Jerzy Koniecki

President
